Product Description

Appearance and material:

This artificial peony flower is made of ultra-thick silk cloth to make the flowers more beautiful when they bloom. The petals are large, three-dimensional and full, and the natural curling edges add to the vividness. Using ultra-thick silk cloth, the flowers are more beautiful and do not require additional care, saving time and worry.

Structure and flexibility:

The branches with built-in soft iron wire have excellent bending properties and can be easily bent without rebounding. They are suitable for any vase size. This design gives you more flexibility in placement and creates different decorative effects.

Creative design and DIY fun:

The unique detachable leaves with condensed silk screen texture provide more possibilities for DIY flower bouquets for little flower arranging geniuses, saving time and being more creative. This artificial flower is not only a great decoration for the dining room table in the living room, but also a great choice for healing, adding color to the room.
