## Product Description

This INS forest-style artificial Camellia Wreath is a headwear full of natural and romantic atmosphere, especially suitable for vacations, wedding photography and other occasions. The selected flower silk cloth and leaf plastic materials inject a high degree of simulation into the entire wreath. The outer layer of the leaves is made of plastic material, which not only improves the simulation of the leaves, but also adds texture.

The artificial memorial wreaths are about 50cm in circumference and are exquisitely designed. They are equipped with an adjustable ribbon at the back to ensure a suitable wearing size and give the bride a confident glow at the wedding. The size of each flower is about 2 cm, small and delicate, adding a fresh breath to the entire headdress.

This near natural camellia wreath is not only ideal for wedding brides, but also the perfect holiday accessory. At weddings, vacations or photo shoots, the INS forest artificial Camellia garland will bring you a dreamy and fairy-like feeling and become a unique and beautiful focus.

As wholesale artificial wreath supplies, we promise to provide our users with the best quality artificial flower series.
