Product Description

Small and fresh artificial flowers have multiple advantages in shopping malls, bars, KTV and other commercial places:

Long-lasting beauty: Simulated faux flower arrangements are not affected by seasons and climate, remain bright all year round, and do not need to be replaced regularly, reducing maintenance costs.

No special maintenance required: No watering, pruning or fertilizing is required, and no special maintenance conditions are required, which reduces the tediousness of management and saves human resources.

Environmentally friendly and healthy: Small fresh artificial flowers are usually made of environmentally friendly materials, which are non-toxic and harmless, do not cause pollen allergy problems, and meet the health requirements of commercial places.

Diversified choices: business artificial flowers can be customized according to the theme of the mall or place, providing a variety of colors and styles to create unique decorative effects.

Strong adaptability: faux floral arrangements are not subject to environmental restrictions such as light and humidity. They are highly adaptable and can be placed in shopping malls, outdoor open-air areas and other places.

Cost saving: A one-time investment can achieve long-term aesthetic effects, which is more economical and affordable than real plants.

Features	Applications
Long-lasting beauty	Decor for shops in malls
Low maintenance	Bar environment embellishment
Eco-friendly and healthy	Theme decoration for KTV
Diverse options	Creative arrangements in cafes
Versatility	Greenery for restaurants
Cost-effective	Outdoor decoration for events
Easy customization	Exhibition booth embellishment
